

# The power of connected minds

## Manager Information Center China (m/f)

We are the world's leading chemical company because we offer intelligent solutions for our customers and for a sustainable future. We link and develop people with diverse talents all over the world. For you, this means a variety of ways to advance. Not only your performance but also your personality matter to us. At BASF, careers develop from opportunities.

BASF has been a committed partner to Greater China since 1885. With major investments in Nanjing, Shanghai and Chongqing, BASF is one of the largest foreign investors in the Chinese chemical industry. We maintain the BASF Innovation Campus Asia Pacific in Shanghai as a research and development hub for the Asia Pacific region, focussing on polymer and advanced materials research, formulation and process engineering.

### What you can expect

As Manager Information Center China at BASF Innovation Campus Asia Pacific, you will advise BASF employees in China in all aspects of information and knowledge management. You will create awareness of information resources available in BASF including professional information analyses in science, patents, engineering, business and end-user tools for self-service searching. Besides, you will be the single point of contact for scientific, patent and business information requests and perform information analyses in the area of scientific, technical and patent information. You will provide training of end-user tools for internal and external information. Moreover, you will identify and evaluate the information needs of the communities in China and develop the information portfolio together with the Group Information Center in Ludwigshafen. Furthermore, you will monitor the Chinese information sources and tools in order to optimize the provision of information from China.

### What we expect

You have successfully completed at least a master degree in polymer or organic material science, a PhD degree will be preferred. First working experience will be a plus. Besides, you have an excellent command of English in writing and speaking and a command in Chinese will be preferred. Beyond these abilities, you are a team player and able to work independently with focus on result and achievement. You have a pleasant and highly responsible work attitude, strong communication skills as well as stable and high sense of confidentiality.

### We offer

Responsibility from day one in a challenging work environment and "on-the-job" training as part of a committed team and excellent career opportunities in an international company.

**Join the best team. There are more than 110,000 other minds to connect with. Do you want to know more? Meet our employees for an online chat on <http://www.on.basf.com/ConnectedMinds>**
