

The power of connected minds

Associate Research Scientist - Advanced Materials Research Shanghai (m/f)

We are the world's leading chemical company because we offer intelligent solutions for our customers and for a sustainable future. We link and develop people with diverse talents all over the world. For you, this means a variety of ways to advance. Not only your performance but also your personality matter to us. At BASF, careers develop from opportunities.

BASF has been a committed partner to Greater China since 1885. With major investments in Nanjing, Shanghai and Chongqing, BASF is one of the largest foreign investors in the Chinese chemical industry. We maintain the BASF Innovation Campus Asia Pacific in Shanghai as a research and development hub for the Asia Pacific region, focussing on polymer and advanced materials research, formulation and process engineering.

What you can expect

As a research scientist at BASF Innovation Campus Asia Pacific you will start with a 6 months training at our research facilities in Germany and then continue your research activities within our Asian international research teams in Shanghai, China. In your position you will lead, manage and supervise a lab team and their research activities. Your team is part of polymer focused R&D projects, with you being in charge of project management. You will present and document research results and observe and evaluate scientific trends. In close cooperation with our international teams from R&D, marketing, sales and production, you will transfer new products into the market and thus contribute to the overall business success. This job offers a perfect starting point for further development in Business or Research & Development.

If you live outside Europe, please apply here: <http://on.basf.com/15OJSIs>

What we expect

You have earned an outstanding PhD in Chemistry with focus on polymer research or materials science. To this, you add a broad expertise in organic research and synthesis as well as experience abroad. You are comfortable working in an international team and keen to expand your area of expertise. Furthermore, you are a goal oriented team player with excellent communication skills.

We offer

Responsibility from day one in a challenging work environment and "on-the-job" training as part of a committed team and excellent career opportunities in an international company.

Join the best team. There are more than 110,000 other minds to connect with. Do you want to know more? Meet our employees for an online chat on
