

The power of connected minds

Senior Chemist - Catalysts Shanghai (m/f)

We are the world's leading chemical company because we offer intelligent solutions for our customers and for a sustainable future. We link and develop people with diverse talents all over the world. For you, this means a variety of ways to advance. Not only your performance but also your personality matter to us. At BASF, careers develop from opportunities.

BASF has been a committed partner to Greater China since 1885. Our Catalysts division is the world's leading supplier of environmental and process catalysts, with over 30 manufacturing sites worldwide. Our R&D is supported by more than 1,100 catalysts experts globally.

What you can expect

As a research scientist in the catalyst team located in Jinqiao, Shanghai, you will proactively perform complex, nonconventional research assignments, which require the application of non-standard chemistry techniques. You will plan, design and implement assigned raw material projects and fundamental research based on loosely defined ideas or problems. Besides, you need to consistently draw non-obvious conclusions and make recommendations for new or modified research projects. You will provide technical leadership and direct raw material team members of the Asia Pacific Research & Development Lab. Furthermore, you may team up with Sales and meet assigned OEMs to set up strategies for platform performance advancement and cost reduction.

If you live outside Europe, please apply here: <http://on.basf.com/1H6A8cX>

What we expect

You have earned a PhD in chemistry with focus in inorganic material science or in raw material; or you have earned at least a Master's Degree in chemical engineering. Preferably, you already have working experience with heterogeneous catalysis. Moreover, you have excellent innovative thinking and research abilities. You need to show core competencies of BASF Asia Pacific such as collaborating for achievements; communicating effectively and demonstrating customer focus. In addition, you have a good command of both written and spoken English, and you are able to make presentations in English. You speak excellent Mandarin; a good command of German will be an advantage. Furthermore, you are a goal-oriented team player with good communication skills and you are able to accept flexible working volume.

We offer

Responsibility from day one in a challenging work environment and "on-the-job" training as part of a committed team and excellent career opportunities in an international company.

Join the best team. There are more than 110,000 other minds to connect with.
